

# MINING NOTES OF INTEREST

## C. M. Schwab is Investing in Inyo Properties

Charles M. Schwab, the famous steel magnate, has again turned his personal attention to mining, and this time has set his eyes on Inyo. He, in company with Gail Borden, the multi-millionaire condensed milk manufacturer from New York, are expected daily at Big Pine, from where they are to inspect the Loretta mine, some twenty miles from there in the White mountains. Preliminary to the coming of Schwab and Borden, has arrived E. S. Sheffield from San Francisco, who represents D. W. Bradley, from San Francisco, who is probably the most extensive mining operator of precious metals in the world.

Sheffield has kept his business here very quiet, but admits that he has come here for his employer to look over the Loretta; and admits that his visit here was occasioned by the coming of the New York capitalists with whom, it appears, Mr. Bradley has joined hands in development and exploitation of the great Loretta mine in these remote mountains. This information is particularly interesting in view of the wide-spread operations of the parties concerned.

Bradley is at the head of a mining syndicate that is now employing over 4000 men in Corea in mining a famous property there, and is also one of the largest operators of the Coeur d'Alene district in Idaho, where they own the Bunker Hill and Sullivan mine. Schwab's mining operations, with him a recent departure from his other business of steel making and ship building, have been mostly confined to Nevada, Inyo county and Mexico, in which country he owns the great San Toy mine.

The Loretta mine is now the property of William Eva, of Big Pine, and lies in the very center of Inyo's big copper-silver belt, which extends through several ranges in the eastern part of the county. In the same belt lies the Monster mine, bonded recently to another set of mining men, the Ubehebe district beyond the Saline valley, so new that it has not even been properly prospected, and the Greenwater district, where Schwab is even now developing a

copper prospect.

The Schwab-Borden party were to arrive at Tonopah this week where they will be met by Malcolm Macdonald, and by whom they will be escorted to Big Pine and from thence to the mine, going to the mine in Mr. Eva's automobile.—Owens' Valley Herald.

## THE OLD CAMP OF MONTEZUMA

Thirty-five years before Goldfield was discovered mining operations were being carried on extensively on the main peak and in the foot hills of the Montezuma mountain, the eminence twenty miles westward from Goldfield, which rears its summit nearly 10,000 feet in the air. Montezuma has no great record of production, for two reasons. The mines are not sensational pocket producers, but are big and strong and of the grade which borders between milling and shipping, but rarely reaches the latter characteristic in a commercial way. This does not mean that no ore has been shipped from the Montezuma at a profit. It has been done frequently, but by careful sorting, which impoverished the remaining mill grade rock. Superintendent Cooper of the Ben Hur mine, located in the district, has prepared data on all the properties in the section, showing that some 30,000 feet of work has been done, or sufficient to drive one of the longest railroad tunnels in the world. Montezuma has a future that promises much. Water is easily developed there and fuel is abundant. Mills will, some day be established and there will be a golden flood of bullion, such as will cause investors to sit up and take notice.—Goldfield News.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

## STOCK MARKET

The following quotations are furnished by the reliable brokerage firm of Kenneth Donnellan & Co.:

## RELIC OF GLORY

**ARE ORDERED AWAY**

Down at the old armory in Carson, where now the state police have their headquarters, men are boxing up all the United States property, belonging at one time to the local troops of the state. These articles have been called in by the war department and will take from the capital every cannon, every gun, saddle, belt and even the flag that once waved over a proud band of Americans. It will take two cars to carry the outfit and as all or nearly all of the outfit has been condemned it will be destroyed upon its arrival at the armory. Broken wheels, old tires and hubs, pieces of chains and scraps of harness, all have to be shipped to carry out the red tape of the government.—News.

Try our four year old port and sherry wines at \$2.00 per gallon. H. J. Hall & Co.

## RICH PLACERS AT MANHATTAN

F. A. Davis said to a Mail representative today, in speaking of the placer deposits below camp, "The placer diggings of the main gulch will surprise the natives and the world."

"My brother and I struck water on the Wolfstone Extension lease at sixty-one feet. The last thirty-five feet we have had pay dirt, and some pannings, through five or six feet, that would run \$5 to \$6 to the yard. At water level we have pannings worth \$10 per yard. We are now putting in tanks and will sink to bedrock."

"Price and Wiedman struck water at fifty feet. They have four feet of pay dirt and have reached bedrock. They have bought a hoist and pump and will install them at once, when they will proceed to drift."

"Heywood, Auxier and Cruze have just made a clean up, and their dirt averaged \$10 a yard."

"Leasers recently started a shaft on the September Fraction ground, just east of Price and Wiedman, and are now down about twenty-five feet. They expect to have to sink fifty feet to get to bedrock. They are at the junction of several draws, and will probably get rich dirt."—Manhattan Mail.

## SHALL WE HAVE

**A NEW COUNTY**

Senator-elect Tallman, of Rhyolite, is busy equipping himself for effective work at the next session of the legislature. Among other things he is quite interested in the movement for a division of the county, and is hard at work gathering data for convincing arguments in favor of the proposition.

It is somewhat to be regretted that more general public interest in the question is not manifested; some action or expression from the chamber of commerce at this juncture would be compatible, and would show that it is alive to the duties assumed.

## TURNING OUT THE BEST WORK

The bindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

## WRITERS WIFE HAS

**SECURED A DIVORCE**

OMAHA (Neb.), Dec. 16.—Mrs. Cora Whitney, wife of C. William Whitney of New York, editor of the Outing Magazine and one of the best known sporting writers in the country, was granted a divorce, with \$100 alimony, in Judge Estelle's division of the district court here this afternoon. The charges were cruelty and nonsupport.

## DAMAGED BY FIRE.

MINNEAPOLIS, Dec. 16.—A Northern Pacific coast train was damaged by fire to the extent of \$40,000 while at the station at St. Cloud, Minnesota. A lighted match dropped by a passenger on a window curtain started the fire. The entire car was soon ablaze and the fire spread to the second Pullman sleeper. Both cars were burned to the trucks.

## MOVEMENT OF U. S. TROOPS.

WASHINGTON, Dec. 16.—Orders involving the movement of about 20,000 soldiers of the regular army during the next twelve months were issued by General Bell, chief of staff, today. These orders include the home coming of about 5000 troops in Cuba, as well as the home coming of about 8000 troops in the Philippines. An equal number from the United States will take their places.

I will sell cheap, for cash, the following, which was saved from Cobweb saloon during the recent fire: An office desk and chair; two national cash registers; one single one double; two oak card tables; cigar case and a liquor case. In at the Nevada Club. ED URE
